- 4. Nagata, S. and Fukuda, O.: A new reconstruction for the lobule type microtia. 8th Congress of the International Confederation of Plastic and Reconstructive Surgery; New Delhi, India; March 1987
- 5. Nagata, S.: New method (procedure) for ear reconstruction and ear elevation in case of microtia. 9th Congress of the International Confederation of Plastic and Reconstructive Surgery; Madrid, Spain; June-July 1992
- 6. Invitational Lectures / Educational Program: University of Santo Tomas; Fatima College of Medicine; Philippine Society of Plastic and Reconstructive Surgery Topic: New method for auricular reconstruction and ear elevation

Topic. Ivew incuriou for auticular reconstruction and car e

Manila, Philippines February 1993

7. Invitational Lecture: 38th Annual Meeting of the French Society of Plastic, Reconstructive and Aesthetic Surgery

Topic: Total auricular reconstruction utilizing a W-shaped skin incision, three-dimensional costal cartilage framework (3-D frame), ear elevation with temporoparietal fascia flap (TPF) and costal cartilage block.

Paris, France October 1993

8. Invitational Lecture / Educational Program: Verona General Hospital and University

Topic: Total auricular reconstruction

Verona, Italy October 1995

9. Demonstration Surgery / Educational Program: Verona General Hospital and

University, 2nd Department of Plastic Surgery

First Stage Operation: Atypical Type Microtia

Verona, Italy October 1995

10. Special Presentation: 7th Annual Meeting of the European Association of Plastic Surgery (EURAPS)

Topic: Complicated auricular reconstruction utilizing the ultra-delicate split-thickness scalp skin (UDSTS)

Innsbruck, Austria May 1996

11. Invitational Lecture: The 18th National Congress of the Turkish Plastic and Reconstructive Surgery

Topic: Auricular reconstruction for non-complicated cases

Bursa, Turkey September 1996

12. Nagata, S.: Recent advancement for surgical treatment of complicated auricular reconstruction. Annual Scientific Meeting of the American Society of Plastic and Reconstructive Surgery

Dallas, Texas (USA)

November 1996

13. Invitational Lecture: International Symposium on Maxillofacial Skull Base Surgery Topic: Auricular reconstruction

Quezon City, Philippines

November 1996

14. Special Presentation: 8th Annual Meeting of the European Association of Plastic Surgery (EURAPS)

Topic: Anatomical and proportional evaluation and analyses of normal and reconstructed auricles

Amsterdam, The Netherlands May 1997

15. Invitational Lecture / Educational Program: 3rd International Symposium on Auricular and Middle Ear Malformations: Ear Defects and Their Reconstructions Topic: Concha type microtia

Luebeck, Germany

September 1997

16. Invitational Lecture / Educational Program: 3rd International Symposium on Auricular and Middle Ear Malformations: Ear Defects and Their Reconstructions Topic: Lobule type microtia – Small concha type microtia

Luebeck, Germany

September 1997

17. Invitational Lecture / Educational Program: 3rd International Symposium on Auricular and Middle Ear Malformations: Ear Defects and Their Reconstructions

Topic: Low hairline with microtia – Secondary reconstruction

Luebeck, Germany

September 1997

18. Demonstration Surgery / Educational Program: Luebeck University, School of Medicine; Department of Otorhinolaryngology, Head and Neck and Plastic Surgery First Stage Operation: Atypical Type Microtia Complicated with Low Hairline; Pseudo-Acoustic Meatus Present

Luebeck, Germany

September 1997

19. Invitational Lecture / Educational Program: University of California, School of Medicine; Department of Plastic Surgery

Topic: Basic fundamentals of auricular reconstruction - My technique

Second Topic: General overview and introduction to complicated cases

Irvine, California (USA)

September 1997

20. Invitational Lecture: Ear Reconstruction '98 - Choices for the Future

Topic: Two-stage auricular reconstruction with autogenous costal cartilage

Lake Louise, Canada

March 1998

21. Invitational Lecture: Ear Reconstruction '98 – Choices for the Future

Topic: Secondary auricular reconstruction - Complicated cases

Lake Louise, Canada

March 1998

22. Panel Discussion: Ear Reconstruction '98 - Choices for the Future

Topic: Auricular reconstruction with autogenous costal cartilage

Lake Louise, Canada

March 1998

23. Demonstration Surgery / Educational Program: COMPRU – Misericordia Hospital

(Edmonton, Canada) and University of Alberta

First Stage Operation: Lobule Type Microtia

Edmonton, Canada

March 1998

24. Invitational Lecture / Educational Program: COMPRU – Misericordia Hospital

(Edmonton, Canada) and University of Alberta

Topic: Auricular reconstruction: Non-complicated and complicated cases

Edmonton, Canada

March 1998

25. Invitational Lecture / Educational Program: University of Milan – Humanitas

Hospital

Topic: Auricular reconstruction

Milan, Italy

June 1998

26. Demonstration Surgery / Educational Program: University of Milan – Humanitas

Hospital

First Stage Operation: Lobule Type Microtia

Milan, Italy

June 1998

27. Invitational Lecture / Educational Program: University of California, School of

Medicine: Department of Plastic Surgery

Topic: Comprehensive surgical procedure for the treatment of the lobule type

microtia

Irvine, California (USA)

September 1998

28. Demonstration Surgery / Educational Program: COMPRU – Misericordia Hospital

(Edmonton, Canada) and University of Alberta

Second Stage Operation: Auricular Projection

Edmonton, Canada

September 1998

29. Invitational Lecture / Educational Program: COMPRU – Misericordia Hospital (Edmonton, Canada) and University of Alberta

Topic: Comprehensive surgical procedure for the treatment of the lobule type microtia

Edmonton, Canada September 1998

30. Special Presentation: 10th Annual Meeting of the European Association of Plastic Surgery (EURAPS)

Topic: Complicated auricular reconstruction: The pre-operative planning and selection of the fascia flap for cases with severed superficial temporal artery (STA)

Madrid, Spain May 1999

31. Invitational Lecture / Educational Program: University of Rotterdam

Topic: Two-stage auricular reconstruction: Total and subtotal auricular reconstruction

Rotterdam, The Netherlands May 1999

32. Invitational Lecture / Educational Program: University of Rotterdam

Topic: Complicated auricular reconstruction: Low hairline

Rotterdam, The Netherlands May 1999

33. Demonstration Surgery / Educational Program: University of Rotterdam

First Stage Operation: Lobular Type Microtia

Rotterdam, The Netherlands May 1999

34. Demonstration Surgery / Educational Program: The International Craniofacial Institute Cleft Lip and Palate Treatment Center (USA)

First Stage Operation: Lobule Type Microtia

Dallas, Texas (USA) Ma

March 2000

35. Demonstration Surgery / Educational Program: The International Craniofacial Institute Cleft Lip and Palate Treatment Center (USA)

First Stage Operation: Secondary Auricular Reconstruction (Adult)

Dallas, Texas (USA)

March 2000

36. Demonstration Surgery / Educational Program: The International Craniofacial Institute Cleft Lip and Palate Treatment Center (USA)

Second Stage Operation: Auricular Projection

Dallas, Texas (USA)

March 2000

37. Demonstration Surgery / Educational Program: University of Milan

Second Stage Operation: Auricular Projection

Milan, Italy

June 2000

38. Demonstration Surgery / Educational Program: Chang Gung Memorial Hospital and University

Second Stage Operation: Auricular Projection

Taipei, Taiwan (ROC) November 2000

39. Invitational Lecture / Educational Program: Chang Gung Memorial Hospital and University

Topic: Complicated auricular reconstruction: Low hairline

Taipei, Taiwan (ROC)

November 2000

40. Invitational Lecture: Symposium – Not All Dwarfed Mandibles are Alike; Hospital General "Dr. Manuel Gea Gonzales" Plastic and Reconstructive Surgery Department

First Topic: Hemifacial microsomia – Ear reconstruction

Second Topic: Ear reconstruction – Unusual patient (Low hairline)

Mexico City, Mexico November 2000

41. Demonstration Surgery / Educational Program: The International Craniofacial Institute Cleft Lip and Palate Treatment Center (USA)

First Stage Operation: Lobule Type Microtia / Small Concha Type Microtia

Dallas, Texas (USA)

March 2001

42. Invitational Lecture / Educational Program: Sponsored by Medicon eG. (Tuttlinjgen, German); held in conjunction with the 12th EURAPS Annual Meeting in Helsinki, Finland

Topic: Auricular reconstruction

Helsinki, Finland

May 2001

43. Special Presentation: 12th Annual Meeting of the European Association of Plastic Surgery (EURAPS)

Topic: Further refinement for the two-stage total auricular reconstruction of the lobule type microtia

Helsinki, Finland

May 2001

44. Demonstration surgery / Educational Program: The International Craniofacial Institute Cleft Lip and Palate Treatment Center (USA)

First and Second Stage Operations: Four (4) cases

Dallas, Texas (USA)

September 2001

45. Invitational Lecture / Educational Program: Chang Gung Memorial Hospital and University: In conjunction with the 8th Annual Meeting of the Taiwanese Cleft Palate – Craniofacial Association

Topic: Secondary auricular reconstruction for unfavorable primary auricular reconstruction results

Taipei, Taiwan (ROC) January 2002

46. Demonstration Surgery / Educational Program: Chang Gung Memorial Hospital and University

First Stage Operation: Extremely Complicated Secondary Auricular Reconstruction Requiring Microsurgery

Second Stage Operation: Concha type microtia

Taipei, Taiwan (ROC) January 2002

47. Demonstration Surgery / Educational Program

The International Craniofacial Institute Cleft Lip and Palate Treatment Center Total of 6 demonstration surgeries (first and second stage operations)

Dallas, Texas (USA)

March 2002

48. Invitational Lecture / Educational Program: COMPRU – Misericordia Hospital (Edmonton, Canada) and University of Alberta: Advanced Technology in Craniofacial Rehabilitation

Topic: Consideration for autogenous or prosthetic reconstruction for complicated cases: Hemifacial microsomia

Edmonton, Canada

March 2002

49. Demonstration Surgery / Educational Program: Saint Joseph Health Center – University of Toronto

First Stage Operation: Secondary Auricular Reconstruction (Adult)

Toronto, Canada September 2002

50. Invitational Lecture / Educational Program: The Hospital for Sick Children – Saint Joseph Health Center – University of Toronto

Toronto, Canada September 2002

51. Demonstration Surgery / Educational Program: The Hospital for Sick Children – University of Toronto

First Stage Operation: Concha Type Microtia

Toronto, Canada September 2002

52. Tunisian Government Invitational Lecture / Educational Program: Tunisian National Meeting of Plastic and Reconstructive Surgery

Topic: Modifications and refinements of a systemic approach with experience of over 900 cases for total auricular reconstruction

Tunis, Tunisia

December 13 - 14,2002

53. Invitational Lecture / Educational Program: Chang Gung Memorial Hospital and University; In conjunction with the 9th Annual Meeting of the Taiwanese Cleft Palate – Craniofacial Association

Topic: Modifications and refinements of a systemic approach with experience of over 900 cases for total auricular reconstruction

Taipei, Taiwan (ROC)

February 2003

54. Demonstration Surgery / Educational Program: Chang Gung Memorial Hospital and University

Second Stage Operation: Extremely Complicated Secondary Auricular Reconstruction Utilizing the Deep Temporoparietal Fascia Flap (DTF)

Taipei, Taiwan (ROC)

February 2003

55. Demonstration Surgery (Trauma Case):

Saint Joseph Health Center – University of Toronto

First Stage Operation with deep temporal parietal fascia flap (DTF)

Toronto, Canada

March 2, 2003

56. Invitational Lecture / Educational Program:

The Hospital for Sick Children – University of Toronto

Topic: Two Stage Auricular Reconstruction

Toronto, Canada

March 3, 2003

57. Demonstration Surgery (Secondary Case):

The Hospital for Sick Children - University of Toronto

Treacher Collins Syndrome (microtia with low hairline)

Toronto, Canada

March 4, 2003

58. The 13th International Congress of the International Confederation for Plastic, Reconstructive and Aesthetic Surgery

Panel Presentation: Two-stage auricular reconstruction: Primary and secondary auricular reconstruction with experience of over 900 cases

Topic 1: Primary and secondary auricular reconstruction for post-otoplasty microtia cases

Topic 2: Refinements and modifications in the two-stage total auricular reconstruction: The 3-D frame

Topic 3: Secondary auricular reconstruction for unfavorable primary reconstruction

results: Tanzer (modified) method

Topic 4: Secondary auricular reconstruction for unfavorable reconstruction results: Severed superficial temporal artery (STA)

Topic 5: Comparative analyses of excessive skin excision in ear reconstruction: First or second stage operation

Scientific Program:

Topic: Secondary reconstruction for unfavorable primary reconstruction results: Hemifacial microsomia

Sydney, Australia

August 2003

59. Demonstration Surgery / Educational Program: Chang Gung Memorial Hospital and University

First Stage Operation: Secondary auricular reconstruction for a hemifacial microsomia case complicated with low hairline and low set remnant ear

Taipei, Taiwan (ROC)

October 2003

60. Educational Lecture / Educational Program:

The Hospital for Sick Children – University of Toronto

Saint Joseph Health Center - University of Toronto

Lecture Topic: Two-stage auricular reconstruction

Toronto, Ontario (Canada)

March 2004

61. Demonstration Surgery / Educational Program: 1) Saint Joseph Health Center 2)
The Hospital for Sick Children – University of Toronto

Saint Joseph Health Center: First Stage Operation – Auricular reconstruction for a traumatic case utilizing the deep temporal fascia (DTF)

Hospital for Sick Children: First Stage Operation – Treacher Collins syndrome patient with low hairline

Toronto, Ontario (Canada)

March 2004

62. Summer Meeting of the British Association of Plastic Surgery

First Editorial Advisory Board Members Meeting

Dublin, Ireland

July 2004

63. The 5th Asian Pacific Craniofacial Association Conference

Guest Special Lecture: The two-stage auricular reconstruction with experience of over 1,000 cases and complicated auricular reconstruction with hemifacial microsomia

Seoul, Korea

October 2004

64. Demonstration Surgery / Educational Program: Chang Gung Memorial Hospital and University

First Stage Operation: Secondary auricular reconstruction

Taipei, Taiwan (ROC)

October 2004

65. Winter Meeting of the British Association of Plastic Surgery

Scientific Program:

Topic 1: Two-stage auricular reconstruction: An overview (LH Yap and S Nagata)

Topic 2: Clinical management of complex ear reconstruction

Topic 3: A new technique for costal cartilage harvest for auricular reconstruction (Y Kotani and S Nagata)

66. Guest Lecturer: 9th Asian-Pacific Congress of IPRAS

Lecture Topic: Two stage total auricular reconstruction in congenital microtia and complex hemifacial microsomia

Scientific Program: Topic – A new technique for costal cartilage harvest for autogenous auricular reconstruction: a promising future (Y Kotani and S Nagata)

Mumbai, India

March 2005

67. Educational Lecture / Educational Program:

The Hospital for Sick Children – University of Toronto

Saint Joseph Health Center - University of Toronto

Lecture Topic 1: Two-stage auricular reconstruction

Lecture Topic 2: A new technique for costal cartilage harvest for autogenous auricular reconstruction: A promising future (Y Kotani and S Nagata)

Toronto, Ontario (Canada)

May 2005

68. Demonstration Surgery / Educational Program:

The Hospital for Sick Children - University of Toronto

Complicated Auricular Reconstruction Demonstration – Low Hairline

Saint Joseph Health Center - University of Toronto

Complicated Auricular Reconstruction Demonstration - Post ENT

Toronto, Canada

May 2005

- 69. 2005 West Midlands Symposium on Microtia Reconstruction
 - 1) Demonstration Surgery
 - 2) Lecture Presentation: Two Stage Auricular Reconstruction
 - 3) Symposium Demonstration Surgery

Birmingham, UK

May 30 - June 6, 2005

70. Educational Demonstration Surgery: Chang Gung Memorial Hospital

First and Second Stage Operations

Taipei, Taiwan

October 10 - 15, 2005

71. Plastic Surgical Association republic of China (Taiwan PSA) Noordhoff Lecture:

Microtia Reconstruction

November 26, 2005

72. Instructional Courses: Introduction to Two-Stage Total and Subtotal Auricular Reconstruction – The Fabrication of the Three-Dimensional Costal Cartilage Framework (3-D Frame)

San Francisco, California (USA)

October 10, 2006

73. The 14th International Congress of the International Confederation for Plastic, Reconstructive and Aesthetic Surgery

Title: Two Stage Auricular Reconstruction

Berlin, Germany

June 26 - 30, 2007

74. 4th International Congress on Auricular Reconstruction: The Royal College of Surgeons

Keynote Lecture:

- 1) The Nagata Protocol for Primary Reconstruction and Cartilage Harvest Technique
- 2) The Nagata Protocol for Secondary and Low Hairline Cases

Edinburgh, UK

October 10, 2007

75. 4th International Congress on Auricular Reconstruction: The Royal College of Surgeons

Demonstration Surgery: Live operating from Hospital for Sick Children

Edinburgh, UK

October 11, 2007

76. Instructional Courses

Introduction to Two-Stage Total and Subtotal Auricular Reconstruction – The Fabrication of the Three-Dimensional Costal Cartilage Framework (3-D Frame)

Baltimore, USA

October 26 - 31, 2007

77. Instructional Courses

427 Introduction to Two-Stage Total and Subtotal Auricular Reconstruction: The Fabrication of the Three-Dimensional Costal Cartilage Framework (3-D Frame)

Chicago, USA

October 31 – November 5, 2008

78. The 15th World Congress of IPRAS

Master Class: Ear Reconstruction for Microtia and Traumatic Loss

New Delhi, India

November 30, 2009

Current Membership

1. American Society of Plastic and Reconstructive Surgeons (ASPRS)

Corresponding Member

1994 to Present

2. Journal of Plastic and Reconstructive Surgery

Reviewer 1994 to Present

3. University of California Irvine, School of Medicine

Visiting Professor (Plastic Surgery) 1997 to Present

4. University of Alberta, School of Medicine

Adjunct Professor of Surgery 1998 to Present

5. COMPRU (Edmonton, Canada)

Fellow and Visiting Professor 1998 to Present

6. European Association of Plastic Surgery

Foreign Member 1998 to Present

7. University of Rotterdam, School of Medicine

Visiting Professor 1999 to Present

8. Hospital General de Mexico, Plastic and Reconstructive Surgery

Professor 1999 to Present

9. The International Craniofacial Institute Cleft Lip and Palate Treatment Center

Visiting Professor 2000 to Present

10. University of Milan, School of Medicine (Otorhinolaryngology)

Visiting Professor 2000 to Present

11. The Hospital for Sick Children

Visiting Professor 2002 to Present
